SSPL PRESENTS

# Cowos

Every coworking space gets its own website and booking app. Customers pay the space directly. Cowos takes 0% commission.

### 0% commission

On every booking. Prices are the space's own choice.

### Two plans

A flat monthly fee, or pay only for what you use.

### Launch in week 20

Ten spaces live on launch day.

# The problem Cowos solves

## Today, without Cowos

- Bookings arrive by WhatsApp, phone calls and Excel sheets
- Aggregator sites can keep up to 25–30% of each booking
- Many spaces have no proper website of their own

## With Cowos

- A website and booking app in the space's own name
- Customers pay the space directly, into its own Razorpay account
- Invoices, desk passes and reminders go out automatically

Built for independent coworking spaces with 1–3 locations, starting in one city.

# How it works, step by step

## Part 1 · The space owner gets started

1 **Marketing site**

### Sign up

Owner signs up; a free 14-day trial starts

2 **Owner admin**

### Set up the space

Add GSTIN, theme and prices; draw the seat map

3 **Owner admin**

### Connect payments

Link the space's own Razorpay account

4 **SSPL Super Admin**

### Approve and go live

SSPL checks the first publish; the site goes live

## Part 2 · Customers book, the space gets paid

5 **Space's website**

### Customer finds the space

Sees desks, rooms and prices, taps Book

6 **Booking app**

### Picks a seat, pays

Picks a time and a seat, pays by UPI or card

7 **Booking app**

### Gets confirmation

Invoice and desk pass by WhatsApp and email

8 **Owner admin**

### Owner runs the day

Sees who sits where; checks guests in by QR

₹ Customer money goes straight to the space's Razorpay account. Cowos bills the owner by plan: a flat fee, or server use and messages.

# How SSPL earns: two plans to choose from

### Fixed plan

One flat monthly fee. Unlimited use, with messages included up to a monthly allowance.

### Usage plan

No monthly fee. Pay for server use and messages, in slabs like electricity.

### Switch any time

The owner can change plan; the new plan starts on the 1st of next month.

**Every feature on both plans · No commission**

The billing page shows what last month would have cost on the other plan.

## Usage plan example: 650 server units

| Slab | Units | Price | Amount |
|---|---|---|---|
| First 100 units | 100 | ₹0 | ₹0 |
| Next 400 units | 400 | ₹2.00 | ₹800 |
| Above 500 units | 150 | ₹1.50 | ₹225 |
| **Total** | **650** | | **₹1,025 + GST** |

On the Fixed plan the same month costs just the flat fee, for example ₹1,499 + GST, however busy the space is.

*Sample prices for illustration only. SSPL sets the real fee, allowances and slab prices before launch.*

# The plan and what comes next

**Week 1**

Setup and approvals

**Weeks 2–18**

Build all six apps

**Week 20**

Launch: 10 spaces live

**After launch**

Memberships, widget, more themes

## How we'll know it works

- 60% of spaces: 10+ paid bookings a month by month 6
- Revenue covers running costs within 18 months
- Next city once 10 spaces hit 10+ bookings for 3 months

## Decisions still open

- Set the Fixed fee, allowances and slabs
- Confirm the first city (Hyderabad suggested)
- Finalise the visual design system in Sprint 0
